

21st July 2016

INVITATION

We cordially invite you to join us at University College Dublin, Belfield, Dublin 4, to learn more about New Breeding techniques and their implications for the future of plant breeding.

Speaker :Professor Piet van der Meer,
Department of Plant Biotechnology and Bio-Informatics, & Department of European, Public and International Law, Faculty of Law, Ghent University, Belgium

Chaired by Professor J.I. Burke, School of Agriculture & Food Science, University College Dublin.

All are Welcome

Date	Wednesday 3rd August 2016
Speaker	Professor Piet van der Meer
Topic	The EU definition of GMOs and New Breeding Techniques
Venue	Room FSG- 01 Agriculture Building School of Agriculture & Food Science University College Dublin
Time	11:00am – refreshments served 11:30am to 1pm – Lecture

This lecture will be of interest to a wide range of disciplines working in plant and animal science but also will be of interest to lawyers and students from the law faculty. While the technical aspects will be dealt with in detail the seminar will also demonstrate how the European Courts of Justice interpret legal text and seemingly ambiguous definitions.
